- MyWellness
- MindBody
- Perfect Gym

Flinders
University

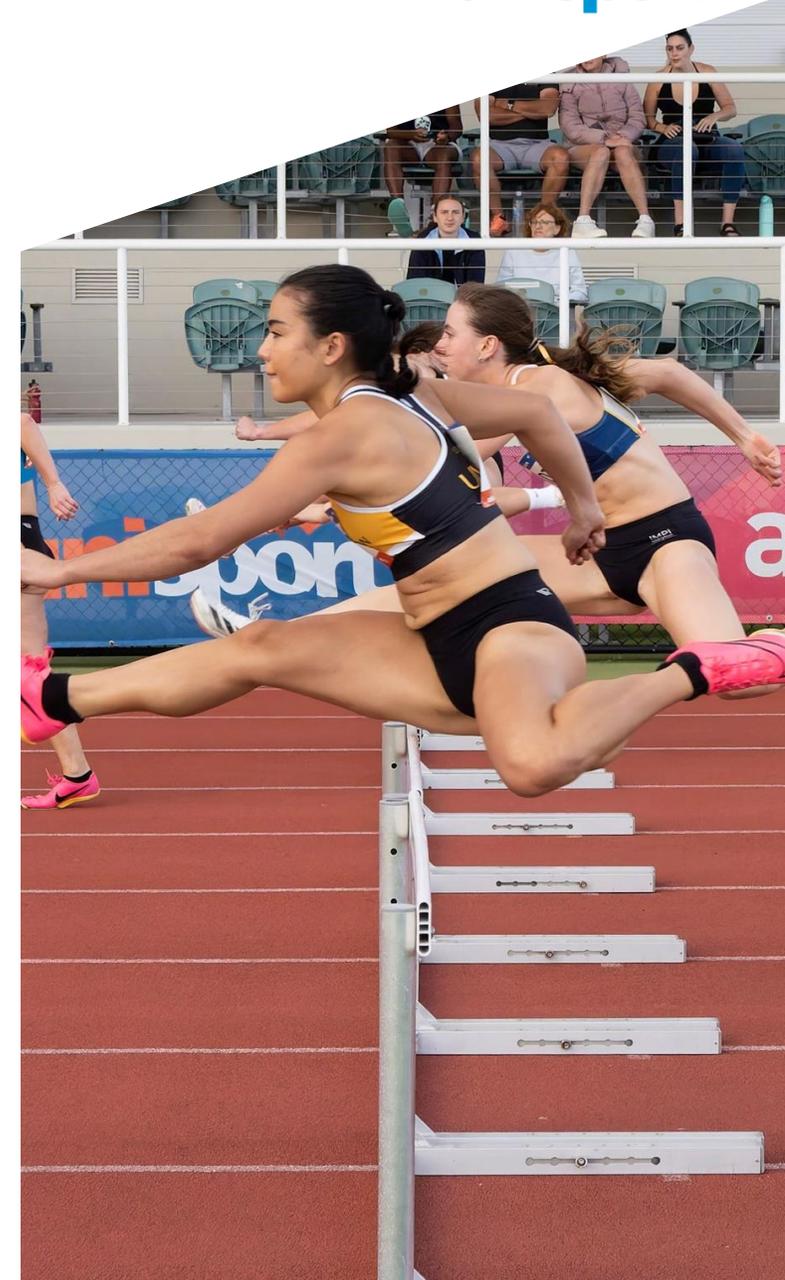

Software currently used

For those who provided an update on their software last year:

- Has anything changed?
- Are you looking at new systems or new uses of your current system, any new pros or cons?

For those here who didn't provide an update at last year's online session:

- What system(s) do you use?
- What do you use it for?
- Pros and cons

General discussion and questions

Any questions you would like to ask the group?
